13
14 The walk followed the location of Road "A" from Wire Road through to Whispering Ponds Road, with Mr. Clinton
15 pointing out the various intersections with Roads "B" through "G". There were clear markers to guide people, and
16 each intersection was clearly marked.

17
18 The party continued down Whispering Ponds Road to its intersection with Wire Road, enabling Mr. Clinton to
19 indicate the approximate proposed locations of Town water and Town sewer that will be required to service the
20 development.

21
22 The party finally reviewed the location of the proposed drainage area, currently at the edge of the quarry. Mr.
23 Clinton indicated the work that will be carried out at the quarry to restore if before the development is activated.

24
25 There was a quorum of Planning Board Members present, and the Chair reminded those present of the requirement
26 of "no discussion".
